

Name:

R - Visual/Auditory Media Analysis	With help, I have some success.	I can compare and contrast the media displayed with the person.	I can analyze non-text media, identify the context in which the media was displayed, and identify the creator's perspective.	Additionally, I can explain how the creator's perspective influences the display.

Directions: Take several minutes to look at what is on the walls of this classroom. You are going to draw conclusions about the teacher(s) in this classroom based on how they have chosen to decorate their classroom. Use the space below to describe your conclusions about the teacher(s). Be sure to describe both what you see in the classroom and how that object (picture, poster, etc.) leads to your conclusion.
