

Name:

Imperialism Assessment

Technology and Imperialism

Evidence - Technology	I have some success.	I can recall specific technology and answer teacher generated questions on specific technology.	I can draw conclusions about how technology affects people and societies throughout history.	Additionally, I can hypothesize what the world would be like without a certain technology or if it had been created in another time period and/ or design a "map" of technological advancement in a specific field.
-----------------------	----------------------	---	---	---

1. List **at least 5** new forms of technology used during Imperialism.
 - a. Explain or define each form of technology.
2. Using specific examples, explain the impact of technology on the Age of Imperialism.
 - a. As part of your explanation, you might include hypotheses connected to specific forms of technology.

Conflict

Evidence - Evaluating Conflict	I have some success.	I can recall specific conflicts in history, the two sides in a conflict, and the causes of the conflict..	I can evaluate the causes of conflict and the results of conflict resolution using evidence from multiple conflicts throughout history.	Additionally, I can predict potential future conflicts based on existing causes, and/ or draw connections between conflicts based on their causes.
--------------------------------	----------------------	---	--	--

1. Which countries did most of the imperializing? **Name at least 5.**
2. Which areas of the world were imperialized? Which countries in those areas were not imperialized?
3. When was the Age of Imperialism?
4. Explain the causes of imperialism.
5. How did imperialists (people and countries who colonized and conquered others) explain and justify imperialism? **Use at least 3 specific pieces of evidence in your answer.**
6. Describe both the short term and long term results of the Age of Imperialism. **You should have at least 2 specific short term and 2 specific long term results.**
 - a. In your answer, you might make connections to other events.
