

Name:

Interpreting World War II Maps

R - Visual/Auditory Media Analysis	I have some success.	I can accurately identify specific details from the visual or audio media.	I can analyze non-text media, speculate, using evidence, on the purpose of the media, and draw conclusions about the purpose of the media. .	Additionally, I can make connections between the media and other people, places, or events in history.

Directions: Use the maps provided to answer the following questions.

Map #1

1. Which countries landed on the beaches of Normandy?
2. Who was the Supreme Allied Commander?
3. On which beach did the Allies gain the least amount of land during D-day?
4. Why did D-day make the USSR happy?

Map #2

5. Which cities are shown as having been bombed by the U.S.?
6. Why do you think these maps were produced?

Map #3

7. What continent is shown on this map?

8. Name 3 countries that lost 80-90% of their Jewish population?

9. Speculate on why Denmark (just above Germany on the map) lost less than 1% of their Jews despite being occupied by Germany for almost 5 years.

Map #4

10. Which country suffered the most military deaths during World War II?

11. Which Axis country suffered the least amount of military deaths?

12. What does this tell you about the war that you did not know before?
