

Name:

World War II

WHK - Causes of Conflict	I have some success.	I can recall specific vocabulary, and identify causes of conflict in individual periods of history.	I can evaluate the causes of conflict, using evidence from multiple conflicts across history.	Additionally, I can design solution to potential conflicts, predict future conflicts, and draw connections between causes of conflicts
--------------------------	----------------------	---	--	--

1. List the causes of World War II.
2. What does **appeasement** mean?
3. What are the names of the two sides that fought in World War II? List the countries involved underneath the side they fought on.
4. In your opinion, which of the causes was the most important? Why?
5. Who is to blame for World War II? Why?
6. How does the current situation in Crimea resemble the years prior to World War II?

WHK - Impact of Technology	I have some success.	I can recall specific vocabulary, identify the immediate and long term effects of technological changes, identify what constitutes technology, and answer teacher generated questions on specific technology.	I can draw conclusions about how technology affects people and societies throughout history and analyze the benefits and drawbacks of technological advances throughout history.	Additionally, I can hypothesize what the world would be like without a certain technology or if it had been created in another time period and design a “map” of technological advancement in a specific field.
----------------------------------	----------------------------	---	---	---

1. What does the word **blitzkreig** mean? How does it connect to World War II?

2. What is “total war”?

3. Who used the atomic bomb? Where was it used? When was it used?

4. How did technology change the experience of war for many civilians in places like Great Britain, Germany, Russia, and Japan?

5. How did technology prevent widespread trench warfare during World War II?

6. Has the invention of nuclear weapons prevented world wars in the years since World War II ended?
